

## Pre-College Opportunities

Universities offer summer enrichment programs where students can experience college first-hand. This is an opportunity to be curious and creative, visit campuses, learn from professors, and meet new people. Day classes, overnight stays in dorms, and virtual workshops are participation options. These opportunities do not guarantee admission to a particular college and each varies in deadlines, eligibility, and cost. *This list is not exhaustive; search for subjects you're most interested in and see what's available!*
